

K-LOVE is the only Christian music radio station that comes in without static while in my vehicle. It is such a blessing to me and my family on a daily basis. It provides encouraging music and uplifting messages to those who listen. It is such a positive alternative to other stations offered on the radiowaves. I believe for the above reasons, that this wonderful station provides a service that is in the public's interest. There are those of us who listen who are encouraged by its contents and would truly feel a void if it were no longer available. Dissapointed is an understatement for the word I would describe should this wonderful station be replaced by anything else. Thank you for your time in reading my comments. Should you require additional feedback, please don't hesitate to contact me.
